Profile

Full-stack developer building production ERP, web and mobile systems: custom Odoo modules in Python, React Native apps in TypeScript. A new framework is a ramp, not a wall.

Skills

Programming

Python · TypeScript · JavaScript · Dart · Java · SQL · Rust

Frameworks

Odoo · React Native · Expo · Flutter · React · SvelteKit · Tailwind · Node.js · Express · FastAPI · Flask · Tauri

Data & Infra

PostgreSQL · Redis · SQLite · Docker · Git · REST · WebSockets · JWT · CUDA

Projects

Karaoke Room: ML vocal separation, word-level lyric sync with CJK romanization, big-screen player driven by phone remotes.

UNW Hunt Tracker: Excel to PostgreSQL pipeline behind a Flask API with role-based access, used weekly by a 100+ member guild.

Experience

Eclypsys

Senior Full Stack Developer — 2026 - present
Full Stack Developer — 2024 - 2026

- Lead developer on Village du Soir, an Odoo 18 platform for a Geneva venue: 45 custom modules, 164 API endpoints, 248 tests, Adyen and TWINT across 40 POS terminals, 400k+ orders.
- Rewrote the customer app in TypeScript on Expo: 62 screens, half the code of the original, shipped over the air without app-store releases.
- Made Redis optional behind a PostgreSQL fallback, clearing 5s request stalls and unblocking the move to Odoo.sh.

Fed. Portuguesa de Artes Marciais Chinesas

Administrative Technician — 2017 - 2024

- Member database, member support, and the federation's website.
